State-Line S-Gaugers

Since it was formed in January of 1981 our group (SLSG) has been very active in the promotion of S-Gauge model railroading. We are a very informal group located in Northern Illinois (Rockford Area) and our neighboring states who get together monthly, most often in member's homes. When we meet, our sole purpose is to discuss and operate S-Gauge trains. We also have occasional clinics on repair and operation of S-Gauge trains and other model railroad topics. We also gather to build and maintain our modular layout which is displayed at several local model train shows. We also work together to develop new layouts that belong to club members. The club has an annual Family Picnic in August as well as an annual Christmas gathering.

The value of club activities to its members includes exchanging information about our favorite hobby and growing in the process. Although American Flyer and its modern descendents are number one with most of our members, all S-Gaugers are welcomed by our club. We are looking forward to hearing from you. You may contact any club member if you are interested in attending a meeting.
